OUT TO LUNCH

Name Dropper Di Pasquale's takes over Towson space.

BY KATHY WIELECH PATTERSON

Sweet Lela's in Towson may have a different name over the door-Di Pasquale's Cafe (3 Allegheny Ave., 410-821-5352)—but fans of the popular lunch spot will be happy to know that the new owners are keeping the menu much the same. Robbie and Laurie Di Pasquale are still offering favorites like the Italian cold cut, pictured,

a hearty sandwich of meats and provolone with a nicely balanced topping of oil and vinegar, mild hots, and grated cheese. In the future, there may be some menu tweaks to include a few items from Di Pasquale's in Highlandtown, but, currently, the homemade and hearty tomato basil soup (\$3.50 per cup, \$4.50 per bowl) is a standout and makes for a savory lunch with half a steak salad (\$5.50/\$8.50 for a full-size portion). Di Pasquale's, which also serves breakfast, has a wide selection of espresso drinks and serves several flavors of Pitango gelato, plus other desserts.

WHAT'S NEW

DAIRY KING

A local farmer opens an organic creamery.

BY JESS BLUMBERG

The milkman may be a rare breed these days, but now Baltimore residents won't have to go far to buy locally made dairy products. Bobby Prigel, owner of Bellevale Farm, pictured, recently opened the Prigel Family Creamery in Glen Arm. "It's natural that people want local milk," he says. "I'm the one out here milking the cows, so you know exactly where it comes from." In 2007, Prigel started the business plan for the creamery, which is certified organic. But some of Prigel's neighbors opposed it, and he faced a handful of lawsuits. Luckily, most of the community rallied behind him and even held fundraisers to help with legal fees. For now, the creamery (4851 Long Green Rd., prigelfamilycreamery.com) is selling ice cream,

but will roll out cheese, milk, butter, and yogurt in the coming months. Prigel says he is excited for the next step on his fourth-generation farm. "It's all about looking out the window and seeing my kids in the garden with their grandfather," he says. "I'm glad to maintain that heritage."
